

ThoroWeave 990 Super Mesh

MESH FABRICS

SUPER SHADE MESH

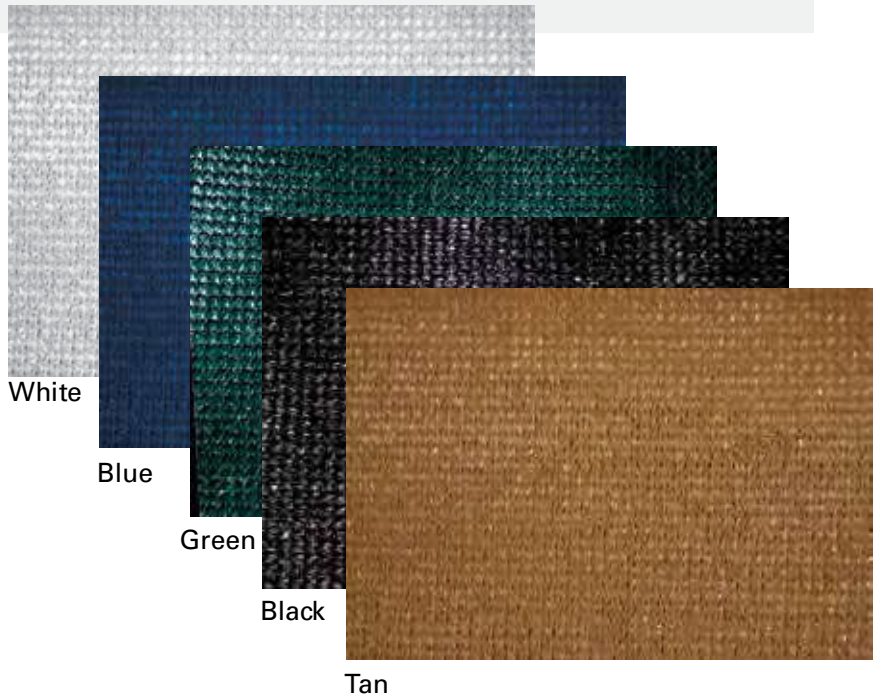

86% SHADE MESH

THOR's New Super Shade Mesh is the perfect outdoor mesh fabric for all shade structures and canopies. Designed to allow air flow to significantly reduce temperatures beneath.

Super Shade Mesh's knitted construction prevents tearing and fraying while the high UV resistance ensures colors remain vivid for years. High quality knitted construction combines Monofilament and tape to produce a dimensionally stable fabric that will not tear or fray if cut. This Mesh fabric goes through a process known as "tenting" which heat sets the fabric to produce a stable and consistent fabric that has minimal shrinkage. Highly resistant to mold and mildew this fabric is easy to clean. Made in the USA.

SUPER SHADE MESH

Part Number	Width	Color	Weight
PPM-72-86-01	72"	White	10.32 oz.
PPM-72-86-02	72"	Blue	10.32 oz.
PPM-72-86-03	72"	Green	10.32 oz.
PPM-72-86-04	72"	Black	10.32 oz.
PPM-72-86-10	72"	Tan	10.32 oz.

TECHNICAL DATA

Material:	100% Polyethylene
Width:	72"
Weight (ASTM D-3776):	10.32 oz. / yd ² (350 GSM)
Breaking Strength (ASTM-D5034, Grab Method)	Warp: 186 lbs. Fill: 397 lbs.
Breaking Elongation (ASTM-D5034, Grab Method)	Warp: 61.4% Fill: 41.8%
Tear Strength (ASTM--D5587, option 1)	Warp: 79 lbs. Fill: 163 lbs.
Bursting Strength (PSI) (ASTM-D3786)	537 psi
Air Permeability (ASTM-D737)	495
High U.V. Resistance	
86% Shade / Wind Break
